

EasyChair instructions for Authors

The submission and review of papers for SVM2021 will be managed through an online conference paper management system called EasyChair. This system gives you, the author, complete control over your submission. You can upload your abstract and check on the review status of your submission. The submission process consists of four stages:

1. Abstract submission
2. Draft paper submission
3. Revised paper submission
4. Final paper submission

The Scientific Committee will review all abstracts and notify the results to authors. The authors of accepted abstracts will be asked to submit a draft paper. Draft papers will be revised with the help of anonymous referees. The authors of accepted draft papers will be asked to submit a revised version. The result of the second revision will be notified after the conference, so that the final version of the paper will benefit from the discussions and opinions collected during the conference. This guide is intended to support authors during the submission process. It has five parts:

- Setting up an account
- Abstract submission
- Draft paper submission
- Revised paper submission
- Final paper submission

While the procedure is quite simple and thus we do not anticipate users running into trouble, we are happy to help if you encounter problems. In the event that you do need help, please contact the technical chair at: academic.svm2021@gmail.com
